SHEIKH MUZAMMIL

Full-Stack Web Developer

Sylhet, Bangladesh | +880 1836376174 | dev.sheikhmuzammil@gmail.com | GitHub | LinkedIn | Portfolio

Career Objective

Full-Stack Developer & CTO (MTM Tech BD) specializing in Next.js, React, Node.js, and MongoDB with experience building production-ready ERPs and client platforms. Passionate about engineering high-performance APIs, secure architectures, and scalable web solutions to solve complex operational challenges. Seeking to leverage my technical leadership and full-stack expertise to drive impact within an innovative software development team.

PROFESSIONAL EXPERIENCE

Full-Stack Developer & System Administrator | AIM Purbachal

May 2026 – Present | Sylhet, Bangladesh

- Promoted to Tech Lead & Co-Founded MTM TECH BD (CTO) after boosting system efficiency by 40% and deploying aimpurbachal.com with 99.9% uptime.
- Architected dynamic institutional ERP features, driving 50% faster result processing, geofenced attendance tracking, AI chatbot, and WhatsApp automation.
- Oversee end-to-end administration, high-reliability production deployments, and technical strategy while driving external web client growth via MTM TECH BD.

TECHNICAL & PROFESSIONAL SKILLS

- **Frontend:** Next.js (App Router), React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Framer Motion
- **Backend & Database:** Node.js, Express.js, RESTful APIs, Native MongoDB Driver, Mongoose, JWT, Better Auth
- **Tools & Infrastructure:** Git, GitHub, Linux (Ubuntu), Vercel,render, Hostinger,VS Code
- **Soft Skills:** Problem Solving, Technical Communication, Team Collaboration, Adaptability, Time Management

KEY PROJECTS

AIM Habiganj — Madrasah Management System (ERP) | Live | GitHub Client | GitHub Server

- Engineered an institutional ERP with a GPS Geo-fenced attendance engine, real-time radius validation, and automated payroll deductions.
- Built a multi-term result evaluation pipeline with GPA calculation, class merit ranking, dynamic A4 split-vouchers, and QR-embedded cards.
- Architected a high-density 123-field dynamic admission engine with optimized multi-step state management, coupled with multi-role RBAC and JWT-secured proxy architecture.

Flixora — Hybrid Movie Streaming & Cinema Ticket Booking Platform | Co-Developer (6-Member Team)

Live Demo | GitHub Client | GitHub Server

- Collaborated in a 6-member team to build a hybrid streaming & cinema ticketing platform with real-time parabolic seat reservation and 10-min locking.
- Integrated Stripe checkout, QR-verifiable PDF ticket pass generation, PIN-protected parental controls, and a Google Gemini AI concierge.
- Developed an operational ticket redemption engine with real-time staff QR verification, single-use state invalidation, and race-condition prevention at cinema turnstiles.

ACHIEVEMENTS & CERTIFICATIONS

- **Full-Stack Web Development Certification:** Completed an intensive 6-month Full-Stack Web Development course from Programming Hero. [Certificate]
- **Recommendation Letter (SCIC & Endgame Program):** Received a Recommendation Letter from Jhanker Mahbub for outstanding contribution in team projects after completing SCIC & Endgame. [Recommendation Letter]
